"The Baby Miners" by Daljeet Singh Sidhu is a poignant and immersive exploration into this marginalized world. Through meticulously researched accounts and intimate vignettes, Sidhu paints a vivid and heartbreaking portrait of the lives of these young miners.

The stories of children like Raju, a 10-year-old boy who spends his days hauling heavy loads of coal in the dark, suffocating mines of Jharkhand, are both heartbreaking and infuriating. Raju's dream of going to school and becoming a doctor is shattered by the relentless grip of poverty that forces him to work alongside his father.

Sidhu's narrative shines a light on the systemic failures and social injustices that perpetuate child labor in India. The lack of access to education, healthcare, and alternative livelihood options for the families of these miners traps them in a vicious cycle of exploitation.

"The Baby Miners" urges us to challenge the status quo, to demand justice, and to invest in the education and future of every child, regardless of their circumstances.

Through its powerful storytelling and unflinching gaze, "The Baby Miners" forces us to confront the uncomfortable truths about the world we live in. It is a book that will stay with you long after you finish reading it, a book that will inspire you to make a difference.
